

Submitter: Mark Hessel

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure: SB611

I am a professional property manager and own residential property as investments. Over the past four years, that the increasing prevalence of rent control and landlord/tenant regulations has decreased the number of investors wanting to rent out their homes - especially in Portland. This goes against the need for more affordable housing to combat our housing crisis. Please don't make things worse by passing this bill!
