

Submitter: Kelsey Bober

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure: SB611

I cannot voice my opposition to this bill strongly enough, as my welfare depends on its outcome. Like everyone, I have felt the pains of inflation and the worsening economy. As someone with a disability who was recently laid off, I depend on the income from my rental to live. When rent does not fairly increase with the market prices, I suffer. I am disabled, I struggle to work, I depend on my investments, as do others.
