

Submitter: Brent Griffith

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB2007

I oppose this. This only hurts law abiding citizens and the public safety of everyone in every city town and county. Criminals don't care if something is posted they're already doing illegal things before that. Having less carrying citizens in stores and in communities and public buildings allows criminals to know that the community and its businesses are not armed and not willing to protect life and property. This will introduce more crime with no accountability.
