Measure: HB3214

I am writing to register my support to prohibit the use of certain animals in a traveling animal act.

Traveling animal acts are a barbaric practice that promotes money making at the expense of animal welfare. They are out of place in the modern world where one can watch wildlife in their natural habitats from the comfort of our homes. Shackling and confining animals who are being made to move from one place to another in unnatural settings for our entertainment is so incongruous with our current lifestyles and ethics. Any laws to restrict or even abolish traveling animal acts are welcome and have my full support.
