

Submitter: David Lowrey

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure: SB348

How about tracking the thousand prisoners released and leave law-abiding gun owners out of it.

Unlawful possession assumes requiring firearms to be registered is constitutional. Nothing good can come of a study with a biased intent.

Law abiding citizens are not the problem . . . Lock up the criminals and leave them locked up . Half of criminals convicted recommit crimes after release. Cut crime in half, lock them up.

Commit a crime with a firearm, automatic 40 year sentence, no parole. Commit a crime with a firearm where someone dies, death penalty. Period. Game over. It's really that simple.
