Measure: HB2006

Bill of Rights Amendment II-right of the people to keep and bear Arms shall not be infringed. Hunting has been a way of life in America since its beginning and beforehand. Many law abiding citizens in Oregon have grown up with guns in the family dating back to their great great great grandfathers. It is a way of life in many Oregon families. A child from an early age can learn and respect the use of a gun. Children of the 1700, 1800, 1900, 2000 and now are taught the respect and use of a gun. This bill infringes on families rights to teach their children, as many Dads and Moms train their children properly and take their children shooting and hunting with them. From my perspective this legislative is after our guns period. Measure 114 is unconstitutional. Do what is right for the people, not your narrow minded thinking. Guns do not kill people, people kill people. Please kill this bill. Please spend your time on actually what the issue is. Criminals need to be in prison. Law abiding citizens should be supported by their rights under the constitution,  
Thank you
