

Submitter: Brian Weinhold

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB2005

What is the point of this bill? Are you really going to lock up every citizen in Oregon? This bill wouldn't just apply to homemade firearms but also to firearms that existed prior to any registry or background check requirement in effect. The cost alone for the average person just to keep their lawful firearms and heirlooms would be devastating. This authoritarian approach goes too far. This bill will turn half of Oregonians into criminals for doing nothing other than exercising their second amendment right. Shame on you for trying to strong arm citizens into being controlled!
