

Submitter: Shawn Schurter
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2005

To whom it may concern:

I oppose any restrictions on our 2nd amendment. We have many laws already in place to deal with criminals and the laws are not being used to keep criminals off of the streets. The DA's are not taking crime serious and we are not locking up people who do not belong in a civilized society.

Instead of trying to pass new laws that we all know the criminals won't abide by, work on enforcing and strengthening our justice system to lock felons up forever. Yes, I am willing to pay more in taxes to lock up Felons forever.

Case in point.... The mass shooting that just occurred in Philadelphia. Do you really believe that the 4 " suspects" who fired over 60 rounds into a crowd of children would of said... " oh no guys... we better not try to kill these kids because our guns are illegal" I can guarantee you the guns that were used are illegal and it was illegal for the scumbags who shot at innocent kids to own or possess them.

Enforce existing laws. Get tough on crime. WE the People are fed up with our government letting anarchy and crime run rampant and making our country and state a laughing stock of the world..
