

Submitter: Ashliegh Ramirez

On Behalf Of:

Committee: House Committee On Economic Development and Small Business

Measure: HB3431

As a person who see's how Measure 110 funds are being utilized in rural communities. Reducing the find will have a huge negative impact on communities of color as there are already a reduction in resources. If we say we want to support BIPOC communities that are struggling with substance use use. Oregon is already dead last in substance use treatment and reducing funding perpetuates the cycle. If funding is reduced, it would be an enormous step backwards.
