

Submitter: Roger Kofler  
On Behalf Of:  
Committee: House Committee On Judiciary  
Measure: HB3390

There was a time in Oregon's history when the use of animal fur was necessary in order to make clothes to fit Oregon's weather. Today slaughtering animals for their fur is merely animal cruelty. Just as we no longer need to buy rubber from a rubber plantation to manufacture rain gear, artificial fur is readily available and very effective. Please vote YES on HB 3390. Thank you!
