We OPPOSE this bill. "Gun Free Zones" do not work! "Gun Free Zones" open more buildings to criminals with bad intent. Where a citizen is "not allowed" to carry a firearm, more people will be put in dangerous situations because violent criminals don't care about or follow the law. Police are not sufficiently funded and cannot respond to situations in a timely manner to prevent mass deaths caused by a criminal shooting in a "Gun Free Zone". A legally armed citizenry acts as a deterrent to violent criminals. This bill infringes upon the Second Amendment Rights of a free people causing a major open invitation to anyone who would choose to create massive chaos.
