

Submitter: Trevor Davis  
On Behalf Of:  
Committee: House Committee On Judiciary  
Measure: HB2007

I oppose because it infringes on those of our citizens that went about legally being permitted and licensed to do what is already guaranteed by the US constitution. Public entities would only be subject to being sued through the infringement of a person's personal right to carry and defend themselves. This is clearly a violation of the 2nd amendment and you all should be ashamed for once again targeting the citizens, and wishing to make them defenseless.
