

Submitter: Tanya Carlsen

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB2007

I support HB 2007 for a safe community for all citizens. This bill does not deny the right for people to have guns but allows certain places to make their own rules regarding whether guns are allowed or not. I believe that there should be certain places that are safe and gun free. This is not about the rights of the NRA but the rights of the American people to be safe. Thank you.
