HB 2007 – Anti-2nd Amendment

This bill expands the anti-2nd Amendment SB 554 that passed in 2021. That bill banned firearms in the State Capitol, even if you had a CHL, and allowed local school boards to ban CHL holders from exercising their rights on school grounds. HB 2007 would expand that authority to local governments, like counties, cities, or special districts.

The language in the bill would be able to also extend this prohibition to "adjacent ground." This dangerously vague language could give local governments complete control over your Second Amendment rights and render your CHL basically useless in situations when you might need it.

I oppose this bill.
