

Submitter: Doug Powell

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB3090

Hello my name is Doug Powell. I am business owner,we sell tobacco products in our store. I oppose this House Bill. My customers are all adults and can make decisions on how they will run their life and what direction they will go with their health. If there was serious issue with flavored tobacco it should be banned in all states and not manufactured. HB 3090 is unfair to the people of this State that enjoy a flavored tobacco product Let the people of the State make their own decisions. Thank you
