

Submitter: Jared Colvin

On Behalf Of: Shaggys

Committee: House Committee On Behavioral Health and Health Care

Measure: HB3090

They say that the biggest reason why vapes and flavored cigarettes need to be banned is because it entices kids to turn to underage smoking and vaping. In all honesty I completely disagree with that. I believe the idea of something untouchable enticing we all know this the thought of touching are parents liquor cabinet or even our grandparents cigars. The reason they really want to ban these products is to control what we use and put inside of our body's just like they used to do with alcohol in the past.
