Committee: House Committee On Judiciary

Measure: HB2006

Please do not pass this bill! Prohibiting persons under 21 is discriminatory. I have many relatives under 21 who already respectfully own guns and would be criminals under this law! We are all very opposed to how this bill would negatively affect good, law-abiding young people interested in learning how to use firearms for sport, hunting and family traditions!

Criminals under 21 always have and always get access to firearms no matter how many laws we pass!

Do not pass this bill!
