Measure: HB3086

HB 3086 would change the representation of the seven-member ODFW Commission to the five river basin management areas instead of six congressional districts. The river basin management areas would give the Commission better geographical representation from around the state, making it a better model for wildlife management. I support HB 3086 as written or with the -2 amendment; I am opposed to the -1 amendment.

The legislature needs to know that Oregon's sportsmen & women want better regional representation on the ODFW Commission!
