

Submitter: David Minato  
On Behalf Of:  
Committee: House Committee On Judiciary  
Measure: HB2007

Hello,

Putting more restrictions on law abiding citizens is counterproductive. People intent on doing harm do not care about laws, rules, or anything else that governs a civilized society. Bad people will always find a way to do bad things. What don't you understand about this?

HB 2007 is an incredibly stupid piece of legislation. Prohibiting conceal carry citizens is only making soft targets of the places that you're trying to protect. Bad people intent on doing harm don't care about prohibiting weapons in places of business or government buildings. What part of that don't you understand?

I go everywhere armed. I will not allow some bureaucrat to dictate how I will protect myself.
