

Submitter: Doug Mccarty

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB3090

Dear Chair Nosse and Members of Committee

I am asking you to vote no HB3090, I am 52 years year old male and I used the vaping to help me stop smoking. I have been smoke free for 6 years now and I don't want the

flavors to go away. Please understand that this is a life changing experience for those that make the switch or choose to quit smoking. We pay the 65% tax on products

isn't this enough. I hope vote no on this Bill that will only cause more issues in the black market and risk factors of our teens as well as adults if this Bill is passed. Black market is already here and closing local shops is only driving people to that market. The cost alone with tax has driven the black market as well to it's highest level. I would be worried more about these issues and what could potentially happen in the future if you take away flavors. People will mix and make their own and that alone is dangerous. Proper regulations are needed but this one should be left alone.

Please vote no on HB3090

Thank you for your time
