

Submitter: Jennifer Towers  
On Behalf Of: Our youth  
Committee: House Committee On Judiciary  
Measure: HB2006

Think of all the young women (and men) who work service industry jobs and late nights! This is the food and beverage mecca of Oregon. The service industry, be it a bar, restaurants, coffee, breweries , etc. There are so many jobs our youth work in that have late hours or require working in different areas of town. The police are stretched so thin now that the risks of being in a situation where you need to protect yourself have sky rocketed! It's not the youth that are the worry. Instead, let's focus on the education of safe gunownership. The bad guys won't follow any laws, and you're hurting the people who do. The cartel and gang members don't care what you push through, and you're further hurting our community by trying to pass things like this. 18-21 yr Olds need to be able to protect themselves if they choose more than ever. Come on, think for a second. Would you rather educate your 19-year-old daughter on protection or reading up on criminal psychocology on trying to find out why she was targeted and possibly hurt or murdered...think for a second.
