

Submitter: Mary Herman
On Behalf Of: self and neighborhood
Committee: Senate Committee On Natural Resources
Measure: SB85

I am strongly supporting SB 85-1 in favor of requiring state DOA to study confined animal feeding operations. As SB 85-3 is a weekend version of SB 85-1, whereby only conditions for poultry will be studied, it is in the best interest of ALL Oregonians that a wider consideration be taken to include all animal operations. Please support SB 85-1 and consider all animal feeding operations, thereby valuing the lives of all Oregonians, present and future. Thank you, Mary Herman
