

Submitter: Richard Hughes
On Behalf Of:
Committee: Joint Committee On Transportation
Measure: HB3374

I support the bill in order to remove judgement when reporting an incident. Before all the facts are obtained, generally all we know is that a "crash" happened. Subsequently, when the evidence has been reviewed, then a determination can be made as to whether an accident occurred. Let's just call it a "crash" until we know the facts.
