

Submitter: Jory Stiles

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB2005

These bills and a infringement of are 2nd amendment rights. I can say whole heartedly that I don't understand all the wording in these bills who really does, what I do know is the 2nd amendment was put into place for us as Americans to have the right without any prejudicial bearing against are abilities to bear arms not just for hunting or home protection but protection against the tiranical government.
