

Submitter: Lance Schiedler
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2007

Hb2007 would create a patchwork mess of places that concealed carriers (who are the most law abiding citizens of all) would be confused as to where they can carry to protect themselves or not. Making criminals out of law abiding citizens. Law enforcement is so short handed if they show up at all to help citizens it now rests on a citizens shoulders to defend themselves against rampant drug addicts, mentally ill, violent criminals running amuck with no consequences and now you legislators want to ban areas adjacent to buildings which includes public right of way aka roads that gun owners already own funded with their tax dollars. I one hundred percent oppose this bill in it's entirety.
