

Submitter: Michael Sears

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure: SB525

Honorable Legislators:

Why is it that you are placing restrictions on the tools that we need to do the work on our properties? Have any of you used a weed eater for 7 hours straight or fell trees and bucked them up for firewood? Do you have any idea what it takes to do this type of work? A battery-operated device may be suitable for city dwellers, but out here in the country, they are a bad joke. The problem with legislators is that they look around their neighborhoods and what may seem like a good idea is not a good idea state wide.

One more note: when you pass legislation that bans or restricts usage of personal property, it is always wrong.

Mike Sears
