

Submitter: William Musser

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB2005

Undetectable firearms or ghost guns should absolutely be banned in Oregon. The second amendment is not absolute in any way shape or form. Firearms need to be tracked for public safety, which should be a priority above any right to own a firearm, let alone manufacture, import, offer for sale, or transfer "ghost guns" to anyone. Thank you for considering and banning these unnecessary unsafe violent weapons.
