

Submitter: Caleb Farmer
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2006

This bill is a thinly veiled attack upon the rights of Oregonians, violates the protections granted us under the second amendment of the bill of rights, and is quite likely one of the most egregious, illegal and discriminatory examples of ageism seen in decades.

The old platitude "If a person is old enough to go to war, and die for these rights, they deserve to exercise them" rings exceptionally true right now.
