

Submitter: Kim McCarrel

On Behalf  
Of:

Committee: House Committee On Emergency Management, General  
Government, and Veterans

Measure: HB2948

I live in Bend and keep my horses on my property. If a wildfire swept in our direction, I (like thousands of other owners of horses, cows, and other farm animals), would need to evacuate my animals to a safe place. For many of us, that safe place in an emergency is the county fairgrounds. House Bill 2948 will help to make fairgrounds all over the state a better, safer place to shelter our animals in an emergency situation. There's a lot of talk these days about the urban/rural divide. HB 2948 is an important step toward bridging that divide. Please support HB 2948.
