

Submitter: William Musser

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB2006

I believe in the right to own firearms in a responsible manner. The second amendment is not absolute and a semi-automatic rifle requires more responsibility than the average 18yo can provide. Having earned a PhD in Clinical Psychology I fully understand that an 18yo has not fully developed the full appreciation of responsibility required to purchase or own a semi-automatic rifle, capable of killing or maiming a large number of people in a short amount of time. There is no room for error. Please raise the legal age to purchase these weapons from 18 to 21.
