

Submitter: Brian Tillinghast
On Behalf Of: Stardust Farm
Committee: Senate Committee On Natural Resources
Measure: SB85

Chair Golden and Members of the Committee,

I respectfully ask that you vote in favor of 85-1 and against 85-3. I care very much about the environment and our community.

I have smelled these chicken barns in California when I was stationed there in the Air Force. This is not a good idea to have these butted up right next to the properties next door. Especially not next to the beautiful old Jordan Church and School. I live downstream on Thomas Creek and my nieces and nephews play in its clean unadulterated water. I am well aware of how the poultry industry likes to come in unannounced and take advantage of outdated laws in areas naive to their ways. That's why I am not in favor of 85-3 as I believe it won't protect us from the poultry industry building to tier one and waiting it out and then building to tier two. We need to take lessons from other states and save our own. I appreciate all the hard work you do for our state.

Sincerely,

Brian F Tillinghast
