

Submitter: Camron Newman
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2007

I firmly oppose this bill. It serves only to punish the group of people that are statistically the most law abiding, while making everyone less safe. It's well known that most mass casualty events happen in gun free zones, this would just create more of them. This is a spiteful bill that is aimed squarely at the group of people that make us more safe. Along with adding needless confusion for concealed carriers, it's completely unnecessary. There is no reason that this should ever become law.
