

Submitter: Rodney John Tomblason
On Behalf Of: Self and Liberty
Committee: Senate Committee On Judiciary
Measure: SB527

Those who support this measure don't trust either the constitution or the public. Your assumption is always guilty if charged. America has a long history of firearms ownership, and that from an early age. People can and do build their own and repair their own. It's really none of your business. And no, dealers are not qualified to tell me who should keep and bear arms.

Please join me in opposing this dictatorial measure.

Thank you.
