

Submitter: ED SALLEE
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB3390

My name is Ed Sallee,
I'm 51 years old Im a Trapper,Houndsmen,Rancher , I ran a Mobile slaughter unit for 32 years, Sold over 25,000 beef hides until people like you voted on things that didn't matter to them but did to people like me.People like you voted for higher restrictions on tannery's that made them shut down,due to that the hide market went away,\$30,000 of my income a year thrown away because people like you made a decision that does not effect their lively hood.I could go on,on how this country is going down hill fast,How every year people vote on things that we have been doing for generation's, but now they decide that we don't need to do them any more due to what, hurting some one's feeling's or a few people think we shouldn't do it.Fur trading has been a part of life since time,You people are going to vote on something that we have been doing since time,Why would you want to take that away It has been an American Heritage for ever, so let me ask you this,Why do a few people think they have the right to make a decision on taking something away since time? I hope you make the right choice when you vote,Because this is a American Heritage that you are voting on!.
