

Submitter: Lisa McCall
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2007

Please do not put forth this unconstitutional bill. "The right of the people to keep and bear arms shall not be infringed."

Please do not place restrictions on where firearms can be carried by law abiding citizens. "Gun-free" zones just ensure that people with bad intentions are the only ones there with guns. You will never stop bad guys from using guns with laws, since laws only take guns away from good guys. Bad guys, of course, disregard the law. You cannot with any luck point to a place where gun "control" is in force as an example where the people are safer. Chicago has removed gun rights, and gun crimes are NOT declining.

The people of China and Russia are not better off because of gun control. They are simply less free. Tyrants start by restricting gun rights, then they remove them altogether.

Please protect our right to bear arms. Please respect the people you are supposed to stand up for. Please don't lead us to a place that is less safe, less peaceful, less free.
