

Submitter: Eric Nelson

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB2007

This is the most recent example of why more regulation on law abiding citizens will DO nothing to fix the issues that our state faces. This legislation does nothing to stop criminals and creates more "gun free zones" that do not work. Criminals do not care if there is a "zone". This bill places more restrictions on law abiding licensed concealed weapons holders and will do more harm than good.
