On Behalf Of:

Committee: Senate Committee On Judiciary

Measure: SB348

My husband and I OPPOSE this bill SB348. Instead of a study, how about actively supporting our police, and actually prosecuting criminals? There are already sufficient statistics available, and we, the taxpayer, should not assume the cost of any study that works to remove or limit the 2nd Amendment Rights of Oregonians. The current Legislative body already has multiple bills regarding firearms on the books for this year, all of which appear to restrict or limit legal firearm owners and/or violate our 2nd Amendment Rights. Oppose this bill and STOP THE ASSAULT ON OUR 2ND AMENDMENT RIGHTS.

Concerning another bill before the Oregon Legislature: Since our law enforcement has been down-sized and now quite limited, we need to have legal citizens with concealed carry permits allowed to carry even in public buildings where there have been "no carry" laws or notices in place because the nefarious characters who plan to do harm will not obey laws or notices anyway and the law abiding citizen who has his/her concealed carry permit will be a deterrent to the one bent on doing harm. PLEASE SUPPORT the Second Amendment for law abiding citizens!
