Measure: HB2006

people from age 16 on up should have the right possess a rifle or any other weapon with training and it's our God-given right to own a firearm, you guys want 16 year old vote, yes, because most 16-year-olds don't even know what Angie is up yet. It's still trying to figure out their lives responsible parents teach our kids, an early age what is right and wrong and how to handle shoot and operate. A firearm safely but yet a 16-year-old or anybody younger than 21 can't own a firearm this is BS
