Committee: House Committee On Judiciary  
Measure: HB2005

As an American citizen I strongly oppose this bill. Americans have a long history of building their own firearms, actually since before the nation existed, and the second amendment protects that right from being denied by the government. Besides being unconstitutional, this bill would not prevent or reduce crime. It would simply turn law abiding citizens into felons instantly upon enactment. It will also cost taxpayers financially in the court system where it will be eventually overturned. Individuals committing crimes need to be held accountable for their actions, not society in general.
