

Submitter: Nicholas Cook

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure: SB611

In an era where affordable housing is limited these rules will only incentivize builders and investors with the resources we need to go elsewhere. It will also incentivize landlords with single family homes to sell to owners who will occupancy the home rather than rent it. This is the exact opposite of what the state should be doing right now. Vote no on this bill.
