

Submitter: Joseph Mitchell  
On Behalf Of: Young law abiding citizens  
Committee: House Committee On Judiciary  
Measure: HB2006

At the age of 18 citizens of this country are considered adults. They are expected to support (and defend) themselves, contribute to society, obey our laws, defend our nation when called upon, along with the other responsibilities of adulthood. This is also the age they become legally responsible for themselves and their actions. This is also the age they receive the right to vote. They should not be excluded from any legal rights protected by our Federal and State constitutions!
