

Submitter: Joseph Mitchell  
On Behalf Of: American citizens  
Committee: House Committee On Judiciary  
Measure: HB2007

Public lands are owned by the citizens, not the governing bodies of that particular property. We do not lose our constitutionally protected rights when we enter that property or unspecified property near it. CHL holders have already passed background checks and requirements to hold the license. This bill would do nothing other than turn law abiding citizens into criminals and cost taxpayers money in the courts where it would eventually be found unconstitutional.
