

Submitter: Sheila Dooley  
On Behalf Of:  
Committee: House Committee On Judiciary  
Measure: HB3390

Please support HB 3390. Animals raised on fur farms suffer extreme psychological and physical cruelty. They are confined to cages with metal mesh flooring that is painful for their feet and are subjected to extreme temperatures. They are killed by methods such as gassing, neck snapping, poisoning, or anal electrocution.

Companies shouldn't profit off the agony, constant pain, stress, and death of these animals.

Please support HB 3390 and prohibit these fur sales. Oregon should follow the example of other states and ban the sale of new fur products.

Thank you.

Sheila Dooley
