

Submitter: Cliff Bellew

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB2005

This is an unlawful bill that will move our county further away from the freedoms this county was founded on.

It will also have financial implication in an already economic downturn limiting manufacturing, import and export of goods.

The disciplinary consequences of the bill are far and away on the extremist side of the American peoples views and only represents a small vocal group of misguided folks.

Please throw this bill out as unlawful and detrimental to the American way of life.
