On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2007

I oppose this measure on grounds that it violates the constitutional right to keep and bear arms. In light of Bruen, this is a direct and blatant attack on the ability for CHL holders to continue to bear their arms for self defense.

The police have no duty to protect us, and have shown that continually, especially to minorities, be that people of color, disabled folk or gender and sexual minorities. The only people we have to rely upon is ourselves — and we can't do that if we're hamstrung by a patchwork quilt of murky legality in terms of where we can and cannot exercise our second amendment rights to protect ourselves and our families.
