Committee: House Committee On Judiciary

Measure: HB2006

You can go to war at 18 but you can't have your constitutional right to bear arms?
You will take self defense away from a 19 year old. You will hinder those who wish to protect themselves. No one in good conscious should vote to remove the rights of the 18-21 year olds while at the same time support those same individuals who are deployed to protect you.

Punish those who break the law not those who haven't.
