

Submitter: Cliff Bellew

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB2006

This is an unlawful bill that will move our county further away from the freedoms this county was founded on.

Our children can carry firearms into war and fight for the country at the age of 18 and die, but this bill would prohibit them from carrying a firearm for recreational purposes. This country was built on the right to carry and bear arms moving the age to 21 infringes on that right and the freedoms to move about freely to recreate and hunt as we have for hundreds of years providing food for our family's and good clean family oriented recreation.

The disciplinary consequences of the bill are far and away on the extremist side of the American peoples views and only represents a small vocal group of misguided folks.

Please throw this bill out as unlawful and detrimental to the American way of life.
