Committee: House Committee On Agriculture, Land Use, Natural Resources, and
Water

Measure: HB2765

Klamath County has been experiencing very serious issues created by severe multi-year drought. Utilizing the reuse of quality water discharge from the South Suburban Sanitary District conveyed within existing waterways will create a reliable source of water for our wildlife refuge habitat, relied on by hundred of thousands of migratory birds and other wildlife.

This is an innovative solution providing a secondary use of our water to support our wildlife habitat.
