

Submitter: Darrell Carlson

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB2006

I oppose this legislation because it is unconstitutional. On top of that, the state doesn't have the resources or follow through to enforce this ridiculous legislation on the individuals who are under the age of 21 that have already legally purchased firearms and undergone a background check. A better use of the states time and money would be preventing, pursuing, and charging those responsible for actual crimes in the Portland area, such as the massive problem with cars getting broken into.
