

Submitter: Nicholas Cooper
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2007

By creating this patchwork of bans, I believe you are putting an undue burdon on gun owners that have gone through a process that requires extra training and a licencing process.

Other than prohibiting licenced carriers further, this bill will only result in law abiding citizens being forced to navigate through a patchwork of restricted areas, forcing them to store their firearms in unsecured places such as vehicles.

These no chl zones will embolden criminals who will now know there is a reduction in risk for them to commit crimes.

I also believe that if this bill were to become law, there will be significant legal costs associated with the inevitable lawsuits objecting.
